# Inside Brandi's

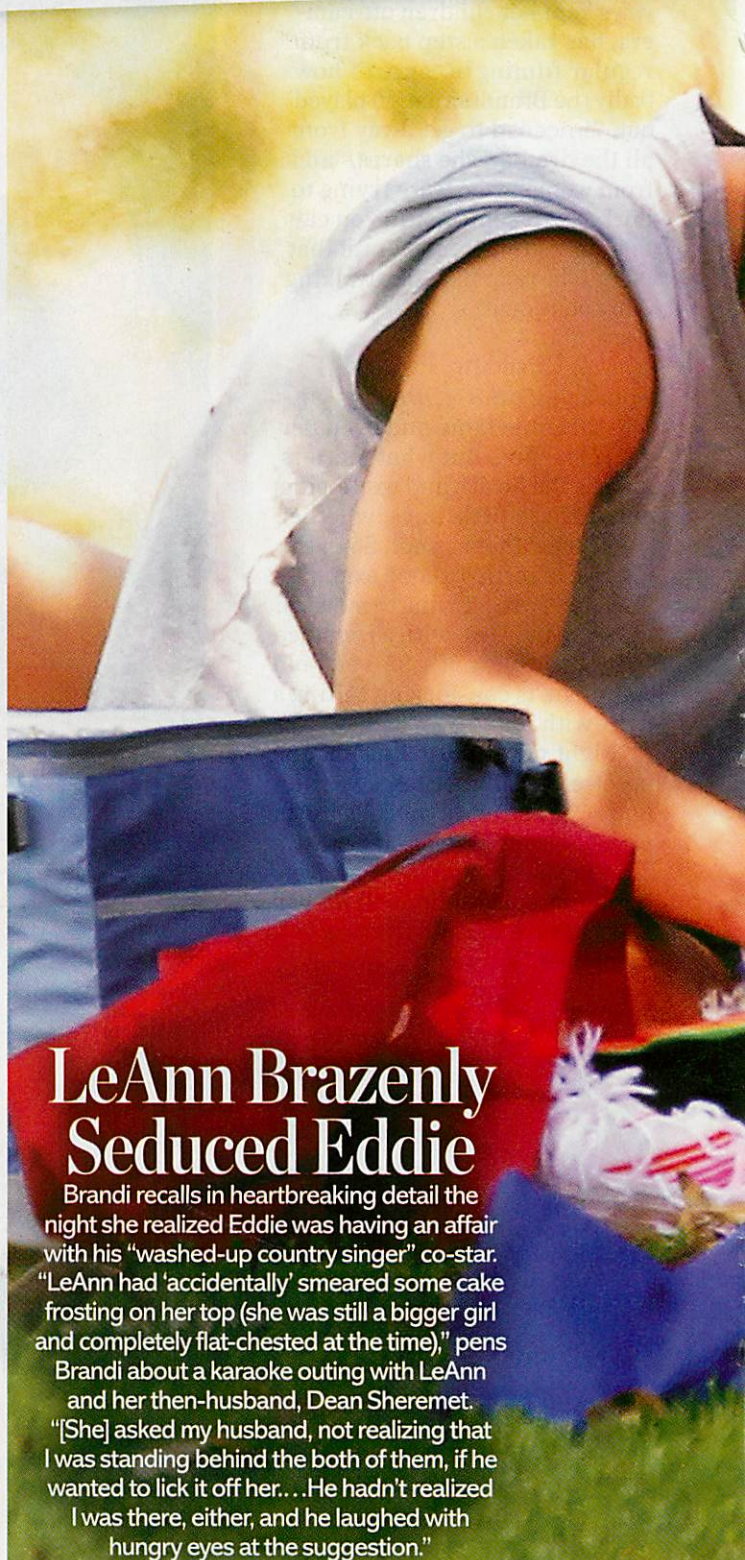

Look out, LeAnn! Brandi Glanville dishes on catfights, surgery and the

**A**drienne Maloof isn't the only one Brandi Glanville's gossiping about: Her new memoir, *Drinking and Tweeting*, is simmering with shocking details from her 2009 split with Eddie Cibrian, 39 — and the part his current wife, LeAnn Rimes, 30, played in it after the two met on the set of the TV movie *Northern Lights*. "This woman...spent more time flirting with my husband than acknowledging her own," writes the *Real Housewives of Beverly Hills* star, 40. Here, *Life & Style* highlights the juiciest bits from Brandi's burn book! **LS**

## LeAnn Went Single White Female on Her

LeAnn wasn't content just taking Brandi's man. She also stole Brandi's style, boobs (she famously got a breast augmentation from the same surgeon who worked on Brandi), even her best buddies, claims the reality star. "She wooed [my friends] with an all-expense paid trip to Cabo — complete with private planes, private beaches and private chefs," says Brandi. "Hopefully, once she gets happy with her life, she'll back the f--k out of mine!"

## LeAnn Brazenly Seduced Eddie

Brandi recalls in heartbreaking detail the night she realized Eddie was having an affair with his "washed-up country singer" co-star. "LeAnn had 'accidentally' smeared some cake frosting on her top (she was still a bigger girl and completely flat-chested at the time)," pens Brandi about a karaoke outing with LeAnn and her then-husband, Dean Sheremet. "[She] asked my husband, not realizing that I was standing behind the both of them, if he wanted to lick it off her... He hadn't realized I was there, either, and he laughed with hungry eyes at the suggestion."

es. “My saying that one thing shouldn’t break up a marriage. A marriage is broken up because it’s not a good marriage.”

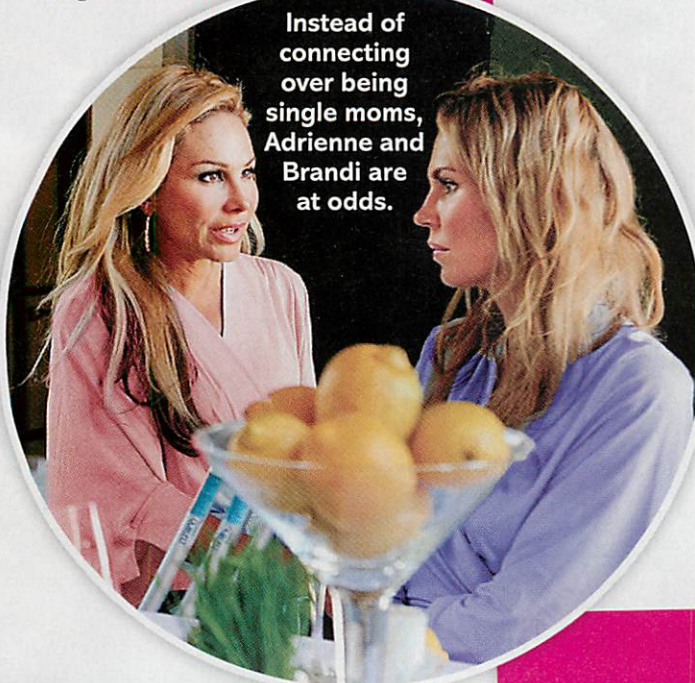

Still, Adrienne isn’t looking forward to encountering Brandi at the planned March 1 filming of their series’ reunion special. In fact, the distraught star, who’s always kept her children off-camera, has taken a step back from regular filming because of how badly the Brandi situation played out. “I needed to get away from all the drama,” she shares, “and from women who were trying to hurt me. At some point, you can take only so much, and I’m at that point. The reunion is like walking into a lion’s den.”

### A Lifelong Feud?

Appearing on *RHOBH* has gotten Adrienne fame and even her own shoe line. But what matters most is the health and well-being of her three little boys, whether she carried them or not. So in the interest of setting a good example, Adrienne, who’s trying to move on from the betrayal with a romance with Rod Stewart’s 32-year-old son, Sean, is considering calling a truce with Brandi — someday.

“Right now I’m really hurt and upset, especially because I’ve stuck up for Brandi as a mother in the past,” Adrienne tells *Life & Style*. “But I’m a spiritual person. Eventually, my spirituality will prevail, and I’m sure that I’ll find a way to forgive her.” **LS**

Instead of connecting over being single moms, Adrienne and Brandi are at odds.

## Brandi: ‘Adrienne Ruined Her Own Family’

Adrienne can keep her forgiveness — Brandi feels she’s the one owed an apology! “Stop saying I ruined your family, because I didn’t,” Brandi says in an interview with *Life & Style*. “She ruined her own family.” Here’s why she feels blameless:

**SHE WAS ATTACKED FIRST** Brandi insists Adrienne had it out for her before her unfortunate blab. “I was going through financial issues, I needed a job,” Brandi explains, “and she tried to get me fired.” Their fight during the Dec. 10 episode even had Adrienne labeling Brandi a bad mom and a drug addict.

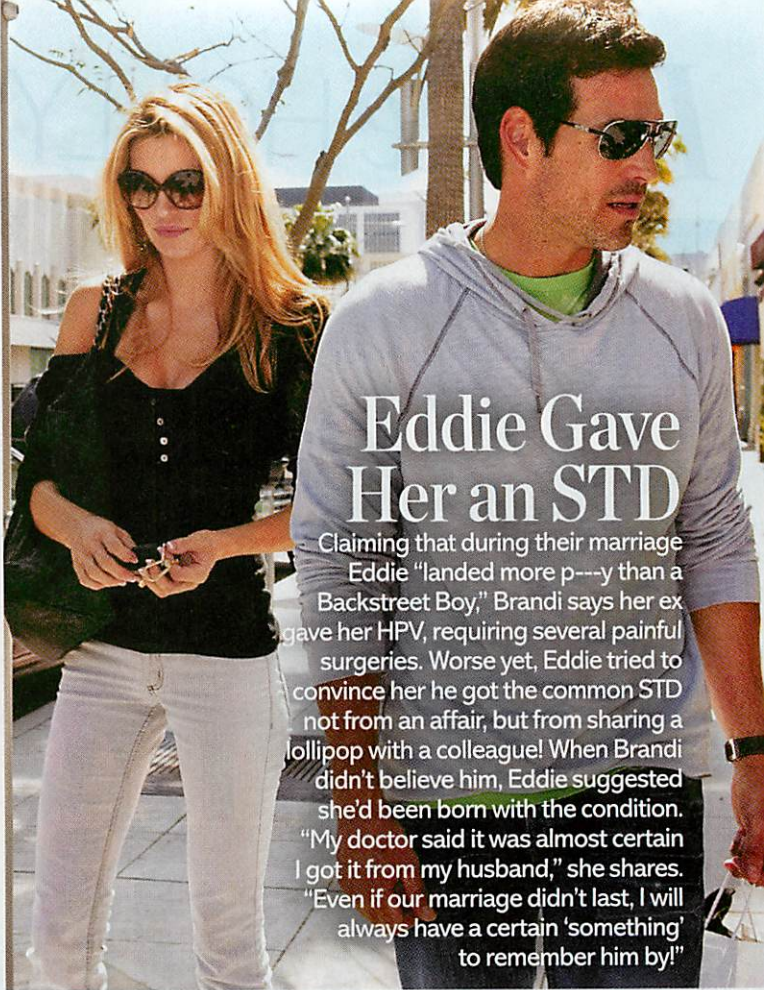

**THE SURROGACY WASN’T A SECRET** At least, not among the *Housewives*. “I don’t think there’s anything wrong with what I said,” says Brandi. “We all knew it already. She would always lie about it. It’s not that big of a deal. They’re still your children, just somebody else had to carry them.”

**ADRIENNE IS TWO-FACED** “She’s not a very nice person; she pretends to be,” shares Brandi. “I called her to talk to her about the situation. But it’s hard for me to apologize to someone when I feel like they owe me an apology prior to that.”

# Tell-All

breakdown of her marriage

## Eddie Gave Her an STD

Claiming that during their marriage Eddie "landed more p---y than a Backstreet Boy," Brandi says her ex gave her HPV, requiring several painful surgeries. Worse yet, Eddie tried to convince her he got the common STD not from an affair, but from sharing a lollipop with a colleague! When Brandi didn't believe him, Eddie suggested she'd been born with the condition. "My doctor said it was almost certain I got it from my husband," she shares. "Even if our marriage didn't last, I will always have a certain 'something' to remember him by!"

## Owning Up to All Her Surgery

Brandi has never made any claims she's all natural, but for the first time she reveals the laundry list of procedures keeping her forever young. In addition to an \$11,500 breast augmentation, she admits "Botox has been a part of my life for 15 years," as well as extensive fillers, facials and peels. Her favorite upgrade? A \$12,000 vaginal rejuvenation surgery performed by Dr. David Matlock — and charged to Eddie's credit card after he left her for LeAnn! "Eddie knows that he has never touched the 'new' me, and that gives me so much joy!" gloats his ex.

## Britney Is *Still* Hooking Up With Jason

Britney Spears and Jason Trawick may have called off their engagement, but he's hardly out of her life — or her bed! “She and Jason have slept together since the split,” a friend of the talent manager tells *Life & Style*. “They’ve seen each other multiple times.” And now that the stress of the impending marriage is off the table, the duo, who announced their breakup last month, are actually having fun with each other. “Before, they were always fighting about

getting married and having kids,” adds the pal. “They’re getting along much better since not being engaged!” Jason, 41, was very involved in negotiating a permanent Las Vegas show for the 31-year-old singer, and he plans to stay involved in the business side (and make “lots of money”). Says the friend, “They’re back to working together and are not dating anymore, but you’ll see these two together at some point either for business or just out for a casual stroll.” **LS**
